## **Client Computer Connection to License Server**

This guide is specific to the client computer connection instructions to a floating concurrent Partek Genomics Suite license server.

## Download Partek Genomics Suite

With administrative privileges, download the latest version of Partek Genomics Suite.

## Run the Partek Genomics Suite Application

Once the download is completed, start the application by clicking on the **Partek Genomics Suite** icon. The default Partek License Manager window will appear. You will be prompted to provide a license (figure 1).

- 1. Select Add License.
- 2. Select the License server radio button.
- 3. Enter the Server Name and select Add.
- You will need to obtain the server name from your license server administrator.
