

Macintosh Installation

This guide is specific to the installation of Partek Genomics Suite software on a Macintosh operating system.

Download Partek Genomics Suite

With **administrative privileges**, click on the button below to download the latest version of Partek Genomics Suite.

[Download Partek® Genomics Suite®](#)

Run the Partek Genomics Suite Application

Once the installation is completed, **drag** the Partek Genomics Suite icon into your Applications folder (figure 1). Once in the Applications folder, start the application by right clicking on the Partek Genomics Suite icon to **Open**.

Figure 1. Drag Partek Genomics Suite into Applications folder.

In some cases, the security preferences may ask you to verify the software download (Figure 2).

Figure 2. Confirm Partek Genomics Suite download

1. **Save** the license.dat (or license.lic) file that you received from the Partek Licensing department to your desktop.
 - If you do not have a license, please contact your account representative or [request a trial](#).
2. Select **Add License**.
3. Select the **License file** radio button.
4. Select **Browse**.
5. Click on the license.dat (or license.lic) file located on your desktop and select **Open**.

6. The Partek License Manager - Add License screen will appear. Select **Add**.

The Partek License Manager window will now show you the status of your license.

7. **Exit** the Partek License Manager and Partek Genomics Suite will automatically restart.

Once the software has been installed and the license has been added, you may delete the license file from your desktop (if you prefer, although this is not required); a copy of your license file is saved to your license file folder (/Users/Shared) after it has been added using the Partek License Manager.

Additional Assistance

If you need additional assistance, please visit [our support page](#) to submit a help ticket or find phone numbers for regional support.
