

Deleting a Pipeline

Only the Partek Flow user that created or imported a pipeline and administrative users have the ability to delete a pipeline. The delete option is not available to non-administrative users that that did not create or import a particular pipeline. To delete a pipeline:

1. Click on a circular [data node](#) under the [Analyses](#) tab and expand the **Pipelines** section from the menu on the right. The [context-sensitive menu](#) will only display pipelines that can be applied to the data type of the selected data node
2. Click **Delete pipeline** (✖) for the pipeline you want to delete (Figure 1)

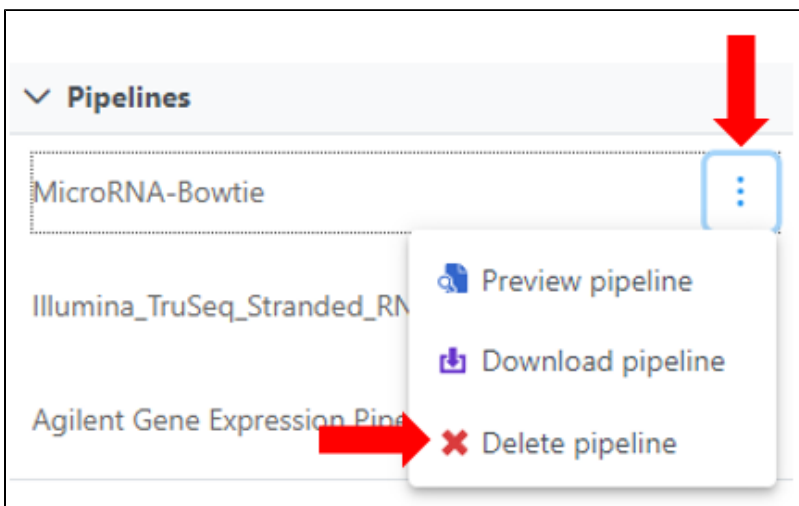

Figure 1. Delete a pipeline. The red cross icon will not be available to non administrative users that did not create or import a particular pipeline

3. You will be asked if you are sure you want to delete the pipeline (Figure 2). Click **Delete**.

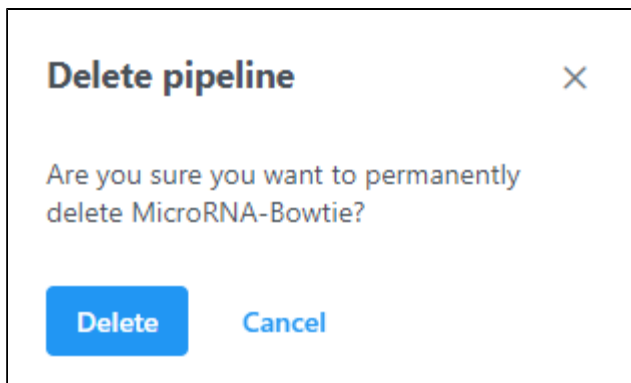

Figure 2. Confirm pipeline deletion

Additional Assistance

If you need additional assistance, please visit [our support page](#) to submit a help ticket or find phone numbers for regional support.
