

# Partek Genomics Suite Security

## Log4j Vulnerability

Partek Genomics Suite Flow does not make use of Log4j components and is not vulnerable to CVE-2021-44228 or any related Log4j vulnerabilities.

## Application Security

Partek Genomics Suite components are kept up to date. Should a security vulnerability be identified it will be immediately rectified. The Partek Genomics Suite desktop application runs with limited user privileges and is not network accessible.

## Data Integrity and Reproducibility

Partek performs internal tests to ensure data generated by Partek Genomics Suite is scientifically accurate and consistent with previous results.
