

Components

Partek® Flow® enables certain components of the software to be configured, such as hiding/showing special tasks and managing saved task parameters like option sets.

This section will illustrate how to use the following options:

- [Filter Management](#)
- [Library File Management](#)
- [Option Set Management](#)
- [Task Management](#)
- [Pipeline managment](#)
- [Lists](#)

Note that the **Task management** page will only be accessible using a Partek Flow administrator account.

Additional Assistance

If you need additional assistance, please visit [our support page](#) to submit a help ticket or find phone numbers for regional support.
