

Selecting an Assembly

Choosing an *Assembly* from the drop-down list at the top will display the associated library files in the pane below. Assemblies are named by the species and the build version (e.g. Homo sapiens (human) - hg19). Different build versions for the same species are regarded as separate assemblies (Figure 1). Administrative users can delete a selected assembly by clicking the **red cross** (✖).

Assembly	Homo sapiens (human) - hg17	✖
	Homo sapiens (human) - hg17	
	Homo sapiens (human) - hg18	
	Homo sapiens (human) - hg19	

Figure 1. Human assembly versions hg17, hg18 and hg19 will appear as separate assemblies in the drop-down list.
